

TAKING ACTION:

The Intersection of Education, Climate Change & Health

FREE WORKSHOP

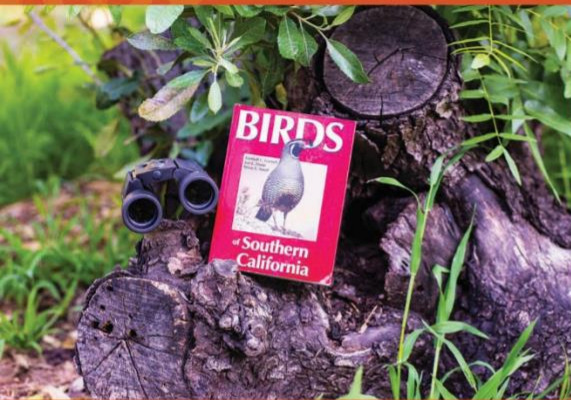

Join Generation Earth to explore how our projects utilize Next Generation Science Standards (NGSS) to empower students to take action on environmental issues stemming from climate change.

- Learn how climate change connects to water, waste and health issues in LA County.
- Access **FREE** resources for NGSS aligned environmental projects.
- Connect with our staff experts for **FREE** personalized support on environmental topics.
- Find out how your school can qualify for **FREE** bus transportation for environment-related field trips.

WHO:

This workshop is for educators serving grades 6-12 in Los Angeles County.

WHERE:

Virtual via Zoom
